

PRESS RELEASE

Blue Earth Diagnostics Highlights Presentations on Axumin® (Fluciclovine F 18) at Upcoming American Urological Association's 2021 Annual Meeting

BURLINGTON, Mass. and OXFORD, UK, September 8, 2021 – Blue Earth Diagnostics, a Bracco company and recognized leader in the development and commercialization of innovative PET radiopharmaceuticals, today announced presentations on Axumin® (fluciclovine F 18) at the upcoming 2021 AUA Annual Meeting (AUA2021), to be held in a virtual format from September 10 to 13, 2021. Details of selected moderated poster presentations are listed below.

NOTE: Axumin® (fluciclovine F 18) injection is FDA-approved for PET imaging in men with suspected prostate cancer recurrence based on elevated blood prostate specific antigen (PSA) levels following prior treatment.

Highlighted Axumin (Fluciclovine F 18) Scientific Presentations

Friday, September 10, 2021

Presentation: **Real-World Evidence of ¹⁸F-Fluciclovine PET/CT Utilization for Recurrent Prostate Cancer in the Veteran Affairs Health System**
Abstract Number: MP11-15
Presenter: Zachary Klaassen, MD, MSc, Medical College of Georgia – Augusta University, Augusta, Ga.
Session Title & Times: MP11: Prostate Cancer: Staging
1:00 – 2:15 PM PT
Location: Bellini 2004

Sunday, September 12, 2021

Presentation: **High-Resolution, ¹⁸F-Fluciclovine PET-MRI for Mapping Prostate Cancer Prior to Focal High-Intensity Focused Ultrasound**
Abstract Number: MP46-20
Presenter: Timothy J. Daskivich, MD, Cedars-Sinai Medical Center, New York, N.Y.
Session Title & Times: MP46: Prostate Cancer: Localized Ablative Therapy
1:00 – 2:15 PM PT
Location: Bellini 2004

Blue Earth Diagnostics invites participants at AUA2021 to attend the presentations above and to learn more about the Company in the AUA2021 Virtual Science & Technology Hall. For full session details and scientific presentation listings, please see the AUA online program [here](#).

Indication and Important Safety Information About Axumin

INDICATION

Axumin® (fluciclovine F 18) injection is indicated for positron emission tomography (PET) imaging in men with suspected prostate cancer recurrence based on elevated blood prostate specific antigen (PSA) levels following prior treatment.

IMPORTANT SAFETY INFORMATION

- Image interpretation errors can occur with Axumin PET imaging. A negative image does not rule out recurrent prostate cancer and a positive image does not confirm its presence. The performance of Axumin seems to be affected by PSA levels. Axumin uptake may occur with other cancers and benign prostatic hypertrophy in primary prostate cancer. Clinical correlation, which may include histopathological evaluation, is recommended.
- Hypersensitivity reactions, including anaphylaxis, may occur in patients who receive Axumin. Emergency resuscitation equipment and personnel should be immediately available.
- Axumin use contributes to a patient's overall long-term cumulative radiation exposure, which is associated with an increased risk of cancer. Safe handling practices should be used to minimize radiation exposure to the patient and health care providers.
- Adverse reactions were reported in ≤ 1% of subjects during clinical studies with Axumin. The most common adverse reactions were injection site pain, injection site erythema and dysgeusia.

To report suspected adverse reactions to Axumin, call 1-855-AXUMIN1 (1-855-298-6461) or contact FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.

Full Axumin prescribing information is available at <https://www.axumin.com/prescribing-information.pdf>.

About Blue Earth Diagnostics

Blue Earth Diagnostics, an indirect subsidiary of Bracco Imaging S.p.A., is a growing international molecular imaging company focused on delivering innovative, well-differentiated diagnostic solutions that inform patient care. Formed in 2014, the Company's success is driven by its management expertise and supported by a demonstrated track record of rapid development and commercialization of positron emission tomography (PET) radiopharmaceuticals. Blue Earth Diagnostics' expanding oncology portfolio encompasses a variety of disease states, including prostate cancer and neuro-oncology. Blue Earth Diagnostics is committed to the timely development and commercialization of precision radiopharmaceuticals for potential use in imaging and therapy. For more information, please visit: www.blueearthdiagnostics.com.

About Bracco Imaging

Bracco Imaging S.p.A., part of the Bracco Group, is a world-leading diagnostic imaging provider. Headquartered in Milan, Italy, Bracco Imaging develops, manufactures and markets diagnostic imaging agents and solutions. It offers a product and solution portfolio for all key diagnostic imaging modalities: X-ray imaging (including Computed Tomography-CT, Interventional Radiology, and Cardiac Catheterization), Magnetic Resonance Imaging (MRI), Contrast Enhanced Ultrasound (CEUS), and Nuclear Medicine through radioactive tracers and novel PET imaging agents to inform clinical management and guide care for cancer patients in areas of unmet medical need. Our continually evolving portfolio is completed by a range of medical devices, advanced administration systems and dose-management software. In 2019 Bracco Imaging also enriched its product portfolio by expanding the range of oncology nuclear imaging solutions in the urology segment and other specialties with the acquisition of Blue Earth Diagnostics.
